

Adjusting Academic and Program Use Standards

In the **Classes** menu, we first see the list of all classes enrolled under your care.

You will then be able to adjust, according to what standard you wish to set for a particular class, the required pass grade and attempts required before a student member of this class has access to the solutions of any given lesson.

To make adjustments, we highlight the class in question; Let's say '7M1' and press 'Edit Class.'

Actions	Year	Class Name	Teacher	Student Pass Grade	Attempts Before Student Can View Solutions
Edit Del	7	7M1	John Hewes	85	2
Edit Del	7	7M3	Sally Johnson	75	1
Edit Del	8	8M3	Tracy Jordan	90	1
Edit Del	9	9M5	John Hewes	90	1
Edit Del	10	10M2	Sally Johnson	90	1

In the new prompt page, we can make any necessary changes to the pass grade and/or the number of attempts required.

Edit 7M1 x

Class Name: 1-16 characters

Year:

Teacher:

Pass Grade: No. of attempts before student can view solutions:

After making these changes we save, confirm the save, and these changes are immediately reflected in the class list.
